

1947

Company founded  
by William Spellman

First recorded use of the  
word "computer" in its  
modern sense

Corporate Headquarters, Hauppauge, NY USA

TR-130 Series

Flock M Series

1969 PB3 Electrostatic Flocking Systems

Custom OEM Systems

1968 Merrill Skeist purchases Spellman HV  
Glassman, Skeist, Spellman

PB-42 Flocking Systems

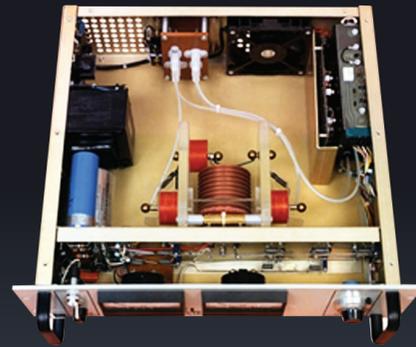

1969: First Lunar landing

# 1960's

The Beginning—  
Merrill Skeist purchases  
Spellman HV

RHR Series

RHR Chassis

FRM Series

TRF coil

1972 RHSR 60 Watt precision HVPS

Custom high power HVPS

1975 SRM 30 Watt, 0.001% regulation and ripple

1976 Spellman moves from Bronx to Plainview

1971: Intel introduces first microprocessor

1979: Sony introduces the Walkman

# 1970's

Expansion to Plainview Industrial Park, New York

1980  
LCM series introduced

1984

**US Patent Awarded**  
4,488,214  
HP/HF  
Inverter System

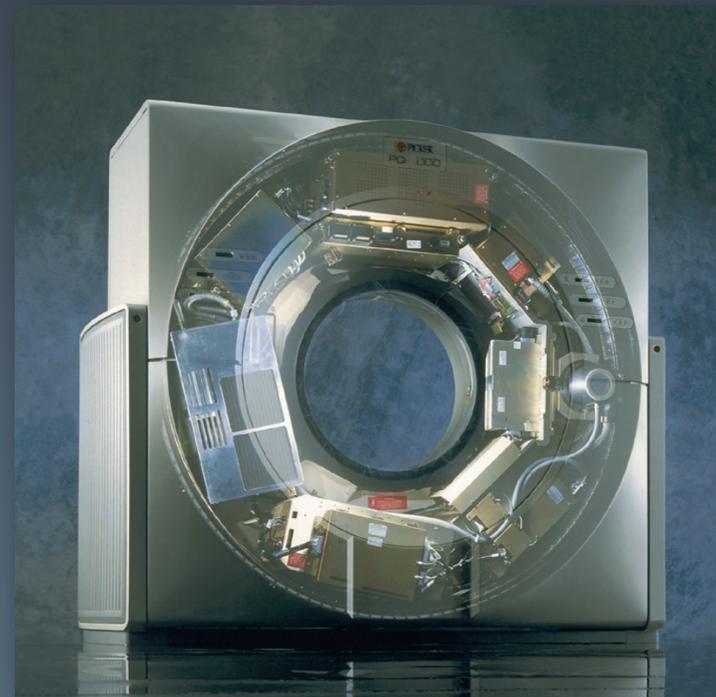

1988 1st generation  
land based PFE

1st CT scanner  
application

1982  
RHP, 1st series  
resonant  
inverter HVPS

1985 CRX125, 1st continuous  
rotation CT HVPS

1983  
SRX200, 1st series  
resonant CT generator

1989

**US Patent Awarded**  
4,805,081  
MultiMode  
Control System

X1365 1st CT generator

1981: Marriage of Diana and Prince Charles

1989: Berlin Wall torn down

# 1980's

Resonant Inverter &  
High Voltage/High Power  
Technology Development

1990 1st Monoblock® developed

1991 1st shipborne PFE HVPS

1992 SL, 1st 1U 130kV @ 300W rack supply

1993 1st Micro/PLD digital design in HVPS

1994 ISO 9002-1994 certification

1995 Spellman Japan opened

1996 Headquarters relocates to Hauppauge, NY

1996 Spellman de Mexico opened

1997 2nd generation land based PFE

1997

**US Patent Awarded**  
5,668,708  
Power Supply with  
Reduced Ripple

1998

**US Patent Awarded**  
5,671,132  
Bipolar CT  
HVPS

1999

**US Patent Awarded**  
6,002,600  
Reversible Polarity  
HVPS

1990: Hubble telescope launched into space

1999: World fears Y2K bug

# 1990'S

CT, PFE and Monoblock® Application Solutions. Global Infrastructure Expansion, ISO Certification

2000 Machine shop facility opened in Hauppauge, NY plant

2001 Purchase of Start-Spellman (UK)

2003 SMT machine installed in Hauppauge, NY plant

2003 10,000 CT generators shipped

2004

Purchase of Del/Bertan High Voltage

2004 Spellman Suzhou established

2005 3rd generation land based PFE

2005 Chinese language website

2006 Russian language website  
ISO 14001-2004 certification

2007 Sixty Year Anniversary

2008 Second Mexico factory opened

2009 Beijing Sales Office opens

2000: Human Genome Project completed

2009: Barack Obama becomes 44th president of the United States

2000's Global Reinvestment, Growth and Strategic Acquisitions

2010  
12kW ST  
Series released

2012  
4th generation  
land based PFE

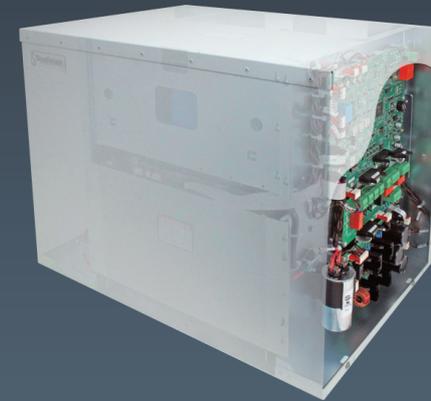

2013 XRV sub systems introduced

2011 Acquisition of Lorad LPX  
NDT generator line

2012  
65th Year Anniversary

2015  
Acquisition of  
Power Valley  
Technologies,  
Beijing, China

2019  
Proud sponsor  
of the international  
Clean Tech  
competition

2010 Korean sales  
office opens

2011 LEED certified Mexico  
plant 3 opens

2012 Acquisition of K&S Röntgenwerk  
Bochum, Germany

2017 Expansion of Suzhou,  
China facility

2010: SpaceX Dragon 1st private launch/orbit spacecraft

2019: First all-woman space walk completed by NASA astronauts

# 2010's

Growth into the Premier  
Global High Voltage Power  
Supply Provider

2021 Next Generation Shipborne Power Feed Equipment

2021 Spellman High Voltage Laboratory opens at Stony Brook University

2023 Portable PFE introduced

2020 130kV Micro focus Monoblock<sup>®</sup> released

2022 75th Year Anniversary

2022 Spellman achieves ISO 27001 certification

2025 Groundbreaking for manufacturing and engineering facility in Visakhapatnam, India

2020 Spellman introduces Integrated Medical Imaging Solutions

2022 Spellman opens 155,000 sf LEED Silver certified building in Suzhou, China

2024 80kV/300W beryllium window Monoblock<sup>®</sup> released

2020-Covid-19 Pandemic Occurs

# 2020's

Spellman Celebrates 75 Years. Expansion of Corporate Headquarters
